

## OUR CHILDREN'S ONLINE PRIVACY STATEMENT

pixevety is committed to protecting children and their personal information. Our Children's Online Privacy Statement reflects pixevety's position on the handling of children's personal information in accordance with the United States' Children's Online Privacy Protection Act (COPPA) and privacy best-practice, generally.

pixevety **does not** market our services to, nor does it directly collect or request personal information from, anyone under the age of 13 years. Accordingly, children under 13 years are not able to create a pixevety account. If we discover that a child under 13 years of age has provided us with personal information or created an account with us, we will immediately delete their information.

Our [Terms](#) additionally require that anyone under the age of 16 may not use pixevety without consent of their parent (or legal guardian).

### Important information for schools:

Organisations, such as schools, often use pixevety to provide secure image management (including image cataloguing and archiving) services. This may involve the images of children of all schooling levels and ages.

In accordance with our [Terms](#), organisations that intend to upload images of a child under the age of 16 to the pixevety platform must first have consent from the child's parent (or legal guardian) to:

- Upload and manage the child's images using the pixevety platform, and
- Use and disclose the child's images for the organisation's purposes.

Where organisations are using the pixevety platform to manage images of a child under the age of 16, the **consent module** may assist in this regard.

Where pixevety provides image management services on behalf of schools in the United States, pixevety operates in accordance with the Family Educational Rights and Privacy Act (FERPA).

You can visit [Privacy @ pixevety](#) and read [Our Policies](#) to find out more about how pixevety handles personal information, or contact us at:
