

## OUR CHILDREN'S ONLINE PRIVACY STATEMENT

pixevely is committed to protecting children and their personal information. Our Children's Online Privacy Statement reflects pixevely's position on the handling of children's personal information in accordance with the United States' Family Educational Rights and Privacy Act (FERPA), and general privacy best practices.

pixevely **does not** market our services to, nor does it knowingly and directly collect or request personal information from, anyone under the age of 13 years. Accordingly, children under 13 years are not able to create a pixevely account and are otherwise prohibited from using the platform or services. If we discover that a child under 13 years of age has provided us with personal information or created an account with us, we will immediately delete their information. Similarly, if you have reason to believe that a child under the age of 13 has provided personal information to us, please contact us through any of the methods described below, and we will endeavor to delete that information from our systems.

Further, our [Terms](#) also require that anyone between the age of 13 and 18 may not use pixevely without consent of their parent (or legal guardian).

### Important information for schools:

Organisations, such as schools, often use pixevely to provide secure image management (including image cataloguing and archiving) services. This may involve the images of children of all schooling levels and ages.

Where organisations are using the pixevely platform to manage images of a child under the age of 18, the **consent module** may assist in this regard.

Where pixevely provides image management services directly to and on behalf of schools in the United States, pixevely operates in accordance with FERPA. In these scenarios, although information relating to students is shared with us so we may provide the platform and services to our school customers, the schools themselves maintain control over, and responsibility for, their students' personal data.

You can visit [Privacy @ pixevely](#) and read **Our Policies** to find out more about how pixevely handles personal information, or contact us at:
